

FEATURED INTERNSHIP

~ FASHION DESIGN ~

Keri has been very busy in her 3-month Fashion Design Internship in Florence.

After one month of Italian language training, she jumped into an internship with a Florentine clothing designer, and after a little while learning the company's preferred style, was given the opportunity to design and create her own clothes!

Customized internships like this and many more are available year round through Global Experiences. If you'd like to become involved in your dream field on an international level then don't hesitate to contact our Program Coordinators today!
